Title: The Magic Boots, Excerpt from Page 1

Word Count: 100

Patty was only six, but already she could read. The book she liked best was one about a pixy. The pixy in the book lived in the forest. It was tiny and liked to sit on toadstools. It would sit there and talk to the animals that came by.

Patty loved the boots that the pixy wore. They had little bells on them. What Patty wanted most was pixy boots like those in the book.

There was a goblin in the book too.... It was mean and nasty. The book told of the cruel tricks that goblins like to play.
